— PHASE 01 — REACH

Understanding Where Your Audience Is

Not everyone in your market is at the same place. Before reaching them, you need to know where they are — because the message that works for one will completely miss another.

01 Not Problem Aware

MINDSET

They don't know they have a problem. Not looking for anything.

WHAT WORKS

Show them a surprising insight, trend, or missed opportunity.

02 Problem Aware

MINDSET

They know something isn't working. Starting to research options.

WHAT WORKS

Educate with frameworks and guides. Show you understand the problem.

03 Solution Aware

MINDSET

Actively comparing vendors. Nearly ready to decide.

WHAT WORKS

Show proof. Case studies, client results, clear ROI. Make it easy.

— PHASE 01 — REACH (CONTINUED)

The Right Channel for the Right Audience

We use multiple channels simultaneously. The mix we activate — and the message we run — depends entirely on where the audience sits in their awareness journey.

AUDIENCE KEY: Not Problem Aware | Problem Aware | Solution Aware | Mixed Stages | All Three Stages

CHANNEL	AUDIENCE FIT	OBJECTIVE	WHAT IT DOES
LinkedIn Ads	Not Problem Aware	Brand Visibility	Puts your brand in front of the right roles and industries before they start searching.
Meta Ads	Not Problem Aware	Broad Reach	Cost-effective awareness at scale. Reaches business owners and decision-makers on social feeds.
SEO / Blog Content	Problem Aware	Inbound Demand	Captures people actively searching for answers to their problem. They come to you.
Google Ads (Search)	Problem Aware	Intent Capture	Appears when someone types their problem into Google. High purchase intent.

All Channels Combined	All Three Stages	Full Funnel	Running all channels together creates compounding pipeline that fills from the top down.

02

PHASE 02 — CAPTURE

Getting the Contact Details

When someone engages — clicks an ad, fills a form, downloads a guide — they give you permission to stay in touch. This is where the relationship begins.

01

Lead Form Ads

LinkedIn one-click forms. No friction at all.

02

Landing Page Forms

Visitors sign up directly from your website.

03

Content Downloads

Guides or frameworks exchanged for an email address.

04

Sales Nav Outreach

Direct LinkedIn connection request and first message.

03

PHASE 03 — NURTURE

Staying in Touch Until They're Ready

Most people are not ready to buy when they first give you their details. The average B2B deal takes 3 to 9 months. Nurture keeps you present, builds trust, and makes you the obvious choice when the time comes.

01

Email Newsletter

Regular, value-first emails — insights, tips, case studies. Sent consistently, not just when you want to sell.

02

WhatsApp Messages

Short, direct messages for updates, invites, or gentle check-ins. High open rates. Personal feel.

03

LinkedIn Retargeting

Show ads to your full contact list while they're still deciding. Stay visible without being pushy.

04

PHASE 04 — CONVERT

From Warm Lead to Paying Client

When a prospect has been nurtured long enough, a signal appears — they click a key link, reply to an email, or revisit your site. That is when your team reaches out. The conversation starts warm because trust was already built.

01	02	03	04	05
Intent Signal	**Sales Outreach**	**Discovery Call**	**Proposal**	**Close**
Opens emails or clicks a key CTA	Personalised message or call	Understand need. Qualify the fit.	Tailored offer with clear ROI	Sign. Deliver. Repeat.
